California-Asia Business Council is California's leading private-sector, non-profit international business association focused exclusively on Asia. Please join us for Cal-Asia's 20th annual Asia Night, California's premier Asia-focused business networking and social event. This gala celebrates the cultural richness of Asia and serves as Cal-Asia's primary fundraiser to support its award-winning business programs.

This year, we are proud to honor Mr. Richard C. Blum, whose early --and continuing -- investment activity in Asia, commitment to higher education leading to founding the Blum Center for Developing Economies at University of California and much more, has helped to build the New Silk Road and California-Asia commerce.
