

## Patricia Yeh

### Senior Associate

Patricia Yeh is a project manager whose deep knowledge of the development process in China has helped clients to realize high-profile, internationally acclaimed projects. A skilled communicator with experience representing both clients and architects, she facilitates strong collaborations that fully leverage the team's design expertise and market knowledge.

As a specialist in managing large-scale, mixed-use developments, Patricia engages advanced design and engineering capabilities while helping to refine and articulate the client's vision. The results are international caliber developments that elevate standards for design and construction while contributing to the client's and the region's economic growth.
